

Tuition Payment Plan Option:

A tuition deposit is required at the time of enrollment before classes can begin. All payments should be made payable to **Talent Stock LLC. Tuition is non-refundable.**

To help those who are not able to pay tuition in full at the time of enrollment, we offer you the option of a monthly payment plan to pay any remaining balance on your student account. Please keep in mind that a discounted tuition rate is offered to those who pay tuition in full at the time of enrollment.

- There will be a one-time \$50 payment plan participation fee per semester.
- Our payment plans are interest-free.
- Monthly payments are automatically drafted from the bank account or credit/debit card that you provide. We suggest that you always check your account five days before your automatic draft to ensure that the correct amount is available that will be processed from your account.

Returned or Declined Payments

If one or more of your automated drafts fail, you and the account holder are both responsible for the returned or declined payment. You will be notified through your email and by phone if you have a returned/declined payment. It is your responsibility to forward this message to any other financially responsible party, if applicable. You can make a payment to make up for the returned/declined payment(s).

Consequences of Returned/Declined Payments

- **\$35 failed payment processing fee** per returned/declined payment (non-refundable)
- In the case of **two or more** returned/declined payment plan installments:
 - You may no longer be eligible to enroll in payment plans.
 - 100% of the balance will be required by the Financial Check-In deadline for all future semesters enrolled.
 - You may not be able to make online payments via automated checking.
- Cash, money order, or credit card payments must be made with Cashiering & Treasury Services. If you do not respond to returned/declined payment notifications, you may be removed from Financial Check-In and all academic courses, athletics, and extracurricular activities.
